## Homes for our Special Guests

### Asher Goes Home

This beautiful boy got an amazing home recently. Asher is completely deaf and has some vision impairment. His new adopters were previous deaf dog owners, so were comfortable with Asher's unique needs. He is now living his best life in the S.F. Bay area. Congratulations Asher!

### Willy Finds his Family

What Willy lacked in eyes, he more than made up for in toes! Our one-eyed, polydactyl kitty was here for just a short period of time before his new family found him here. Willy was the sweetest boy and his winning personality made him a joy to adopt. Kitten season is firing up and we have lots of newcomers to meet!
